NRC	S REVIEW COMPLETED	
25X1	2107-66 11 January 1966 Copy	25X1
	MEMORANDUM FOR: Legislative Counsel	
	SUBJECT: Follow-up on Conversation regarding Visit of to P&W Develop- ment Center, West Palm Beach, Florida	25X1
	REFERENCE: DD/SA Memorandum to LC/OGC, dated 6 Jan 66, Subject: Same as Above	25X1
25X1	1. As a wrap-up to the reference, called me from West Palm Beach the morning of 11 January to state that visit to P&W was concluded on 7 January, after he had spent two days with them inquiring into the basis for the P&W cost estimate on the SST engine. said that had apparently been briefed on the questions he should not ask having to do with the J-58 program, because during the entire two-day visit he did not ask one embarrassing question which would cause either P&W or ourselves any concern.	25X1 25X1 25X1
25X1 25X1	added that since returned to Washington he has had several reports from the P&W Washington office which tend to confirm his view that the purpose of trip was to get himself brought up to speed on basic SST engine technology and cost philosophies. I thanked for his conservative handling of and on that note perhaps we can close the books, at least for the present. JAMES A. CUNNINGHAM, JR. Deputy Director of Special Activities	25X1 25X1 25X1 25X1
